THINGS THAT CAN MAKE A DIFFERENCE

Choose a contractor that takes an interest in the over-all setting for your pool, not just the pool, because the over-all look is important.

Consider an area for sun baking, an area for shade and of course, water. Also consider the impact of legal fencing requirements as you will want the fencing to enhance the view, not detract from the view of your new pool.

When choosing materials.. It is usually best to stick to the theme that is already existing around your property. New materials and colours may look great, but upgrading your property to match can get very expensive.
